5.1.b A VRC Board, Passage Control or Question will be found in the 1st kilometre of any section of unsealed road that forms part of the correct route and which extends for more than a total of 1 kilometre in length.

5.1.c Unsealed roads which are less than 1 kilometre in length and are on the correct route may also have one of the 3 observations indicated above, at the discretion of the Event Director.

5.1.d Condition 5.1.a above will not apply to sections of road on the correct route that are clearly unsealed as a result of current or ongoing road repair or maintenance.

5.2 Recording of unmanned Controls

In accordance with NTSR Article NA Article 5.1 (c) (iv).

Where the Board is an 'M' or 'Z' then that letter (M or Z) shall also be recorded (e.g. M25 or Z2).

This does not apply to entrants in the Tour and Social Run categories.

5.3 Observers

At certain points around the course there may be observers checking compliance with the instructions. Any crews detected on the wrong route will be given a penalty as listed in clause 7.1 or 7.2. All control officials are deemed to be observers and judges of fact.

6. Route Instructions

6.1 For the Tour and Social Run categories

For the Tour and Social Run categories, the Event will predominately use route charts. Some simple map reading may also be used. A map will be attached to the relevant DIVISION Instructions.

6.2 For the Masters and Apprentices categories

The Event will be run under "Shortest Map Route" VIA to VIA requirements as defined in the NTSR-NA 2.3, but with the following amendments and clarifications:

6.2.a NTSR-EG 1.1.4 (a) (vii) is amended to read: When instructed in the Route Instructions to Pass a defined mapped feature you must use the closest mapped road to the described feature.

6.2.b You may only use the roads that are shown on the official Event MAPS or those that may be advised as 'deemed' mapped roads in the Route Instructions.

6.2.c Roads that have been deemed to be mapped roads, are deemed to be mapped roads for the entire event.

6.2.d Junctions identified in the Route Instructions with a clock (time) reference must be 'entered on the hour hand and departed on the minute hand'.

6.2.e Official MAPS will be provided to Masters and Apprentices crews at Event Registration. It is recommended you should rely solely on the supplied Event MAPS.

6.2.f NTSR-NA 4.3 (a) (vii) is modified so that details of the maps (i.e. the origin, original date of issue) need not be provided.

6.3 For ALL Categories.

All controls must be entered and exited according to the directions given in the Route Instructions. A road may be crossed but not used in the opposite direction at any time during each Division, unless specifically permitted in the Instructions to do so.

ROAD CARDS will be issued to all crews at the beginning of a DIVISION and each crew is solely responsible for its ROAD CARD. Officials may, at certain locations, retain the current ROAD CARD and issue a new one. This will generally occur at the break between DIVISIONS.

Various observations must be recorded onto the ROAD CARD. These include answering questions and/or recording information from unmanned controls.

Questions may not be listed in order of distance.

Answers to numbered questions must be recorded in the **SIMILARLY NUMBERED BOXES** on the ROAD CARD. If the answer to a question is found missing by the set up vehicle, an upside down VRC will be placed at the distance/location. The information on this VRC must be written in the place reserved for the answer to the original question. Answers to Questions will be found on the left-hand side of the road.

Distances at Major Controls, some VIAs and Question locations will be given in both kilometres and miles. The conversion factor is 1 Km = 0.621 MI.

6.4 Abbreviations

6.4.a For the Tour category and SOCIAL RUN

Abbreviations as used in the Event Route Chart Instructions will be issued to crews at Registration.

6.4.b For Masters and Apprentices categories.

Abbreviations in accordance with NTSR-EG 4.2 will be used. They will not be included with the Event documentation issued at Registration. You are advised to have a copy of the NTSR document with you during the Event.
